Solution for processing industrial dirt and hazardous waste

Industrial dirt is mostly oil or similar that can be classified as hazardous waste, of which the handling and disposal is regulated by law.

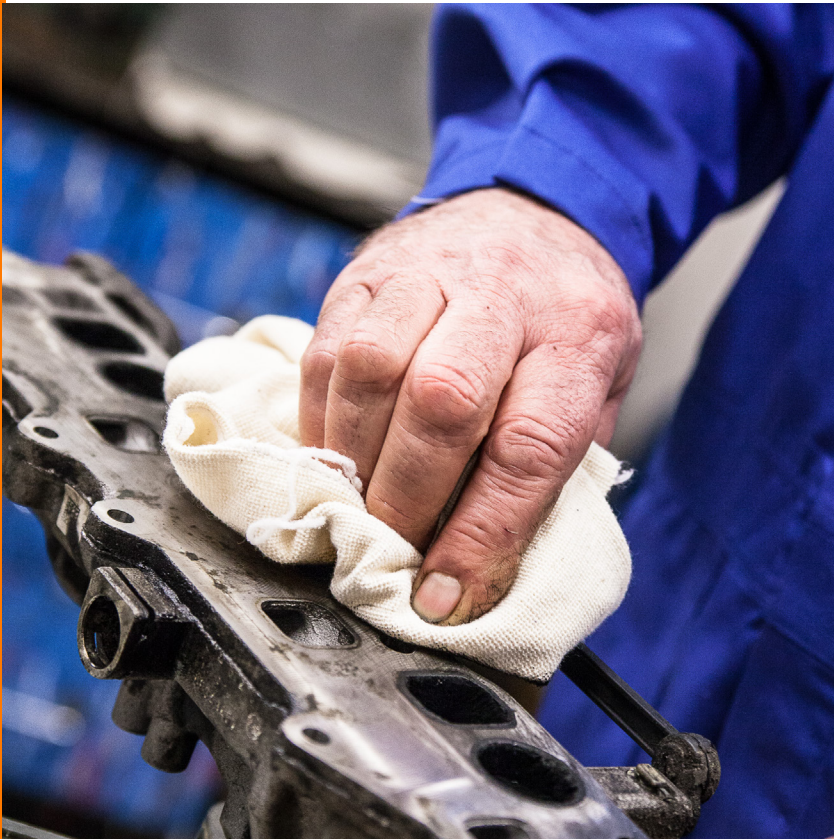

Our service includes industrial towels and absorption mats, designed for professional industrial dirt handling.

Great products

Industrial wipers and absorption mats are efficient, high quality, and lint-free productions that keep the premises clean, reducing the need for mechanical cleaning.

The industrial wiper service is perfect for all types of facilities dealing with oil, dust, swarf, and other types of soils.

Why buy when you can rent

Our rental service is always tailored to your needs. Together, we find the best option for you, as well as take care of everything from deliveries and pickups to installations, maintenance, replacements and training. With our service, you don't need to invest in disposable rags or paper. You can forget about storing and maintaining them – we do everything. You only pay for the weekly leasing.

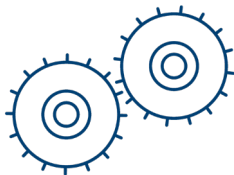

What benefits will our service bring to you?

Saving time and money

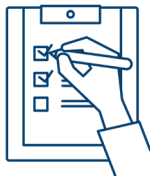

No need for planning, buying, delivering or getting rid of the waste

Increase productivity

Always have the right tool at the right time

Safety regulations

We dispose of the used wipers in accordance with environmental regulations

Cleaner workplace

Our easy-to-use service will significantly improve the cleanliness of the workplace

Become more sustainable

Sustainability is the backbone of our business. Together, we can do even more!

Renting textiles is a sustainable and carefree option – this is how it works

Our circular model promotes sustainability

Customized service

Our industrial wiper service is tailored to your wishes and needs. We pick up the soiled wipers and absorbent mats that need washing, and at the same time, we hand over clean products.

Safely handles hazardous waste

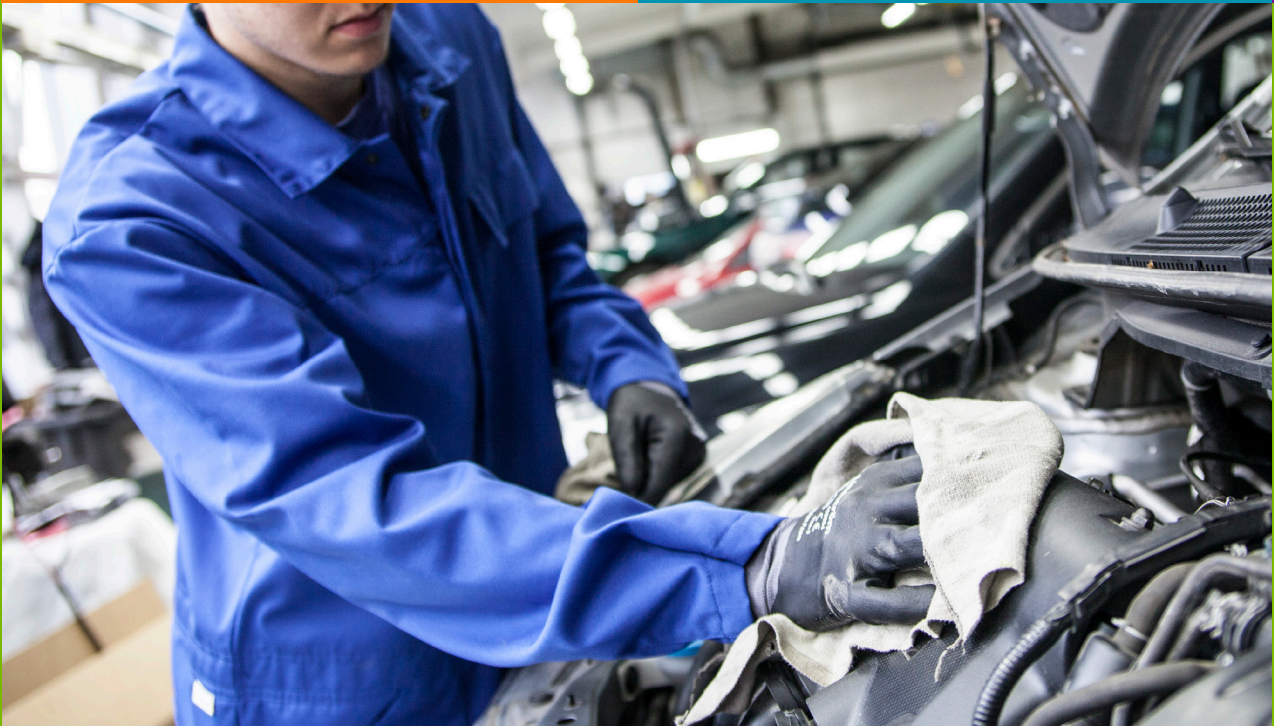

Our business complies with the regulations of the handling and disposal of hazardous waste. We also handle the process reporting on the disposed waste.

Saves expenses and environment

Our reusable products reduce the amount of waste, as well as your disposal costs. With efficient absorption ability, you only need a limited number of wipers at your premises.

Support carbon-neutral future choose the circular solution

In the end of their life cycle, our old wipers are recycled and used in the production of absorption mats. Our aim is to recycle 100% of our textile waste by 2025, and to offer all our customers carbon-neutral services by 2035.
