

Purchase Order Label Position for Work Wear

Introduction

This is a general guide for purchase order label and position in different workwear product types manufactured by Lindström Group. Purchase order label must be added to all products regardless of if it is specified in the product's technical specifications. Label must be in a visible place or easy to check when product is folded in stock. Order lots are possible to track if necessary. Purchase order label also includes the info of the manufacturer required by the European Union legislation.

1. Purchase order label

The Garment Supplier prints the label themselves according to their best in-house practice. Printed text must be easily readable and last in the washing throughout the product's lifecycle. The print color for the label information must be black.

1.1. Information on the label

Information on the label is made up from two parts: Production related variable information and unchanged Manufacturer information.

1.1.1. Variable information (bold font):

Supplier/Purchase order number

- **Supplier number** is assigned and provided by Lindström Group to each supplier.
- **Purchase order number** is always displayed in the placed purchase order.

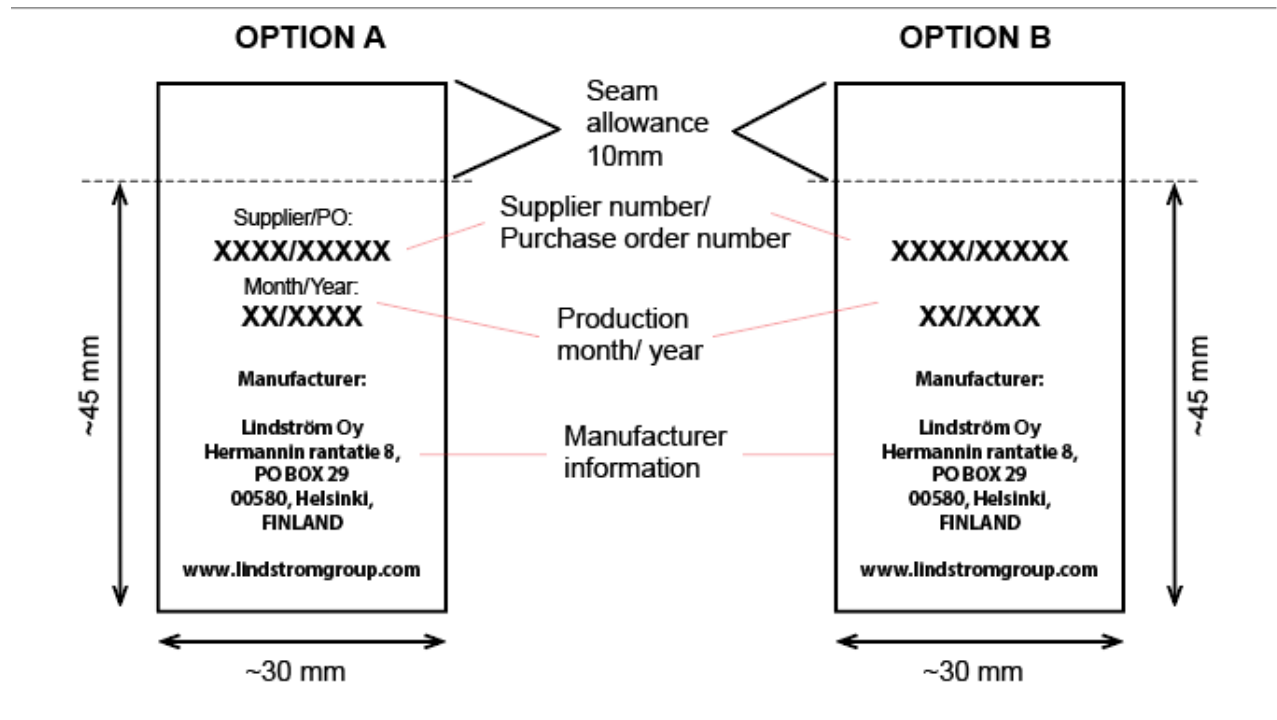

Production month/year

1.1.2. Unchanged information (bold font):

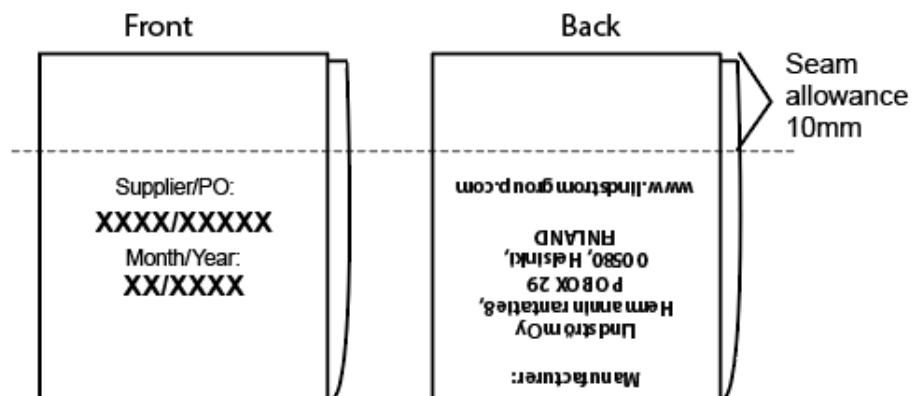

Manufacturer:
