

Mat Service

A cost-efficient & sustainable
solution for your premises everyday

Mats are a great solution!

Mats matter. The right mats keep your premises clean, give them a brighter look and offer a convenient way to build your company's brand. Having the right kind of mat in the right place promotes safety, improves people's well-being and gives a strong message. Our collection includes entrance mats, ergonomic mats, traditional hallway mats and impressive, tailored design mats.

Save on cleaning cost

Things to keep in mind when planning cleaning:

- Approximately **80%** of dirt enters through the front door.
- Approximately **70%** of cleaning costs come from cleaning the floors.

No slips, trips or falls

A workplace with zero accidents and falls promotes everyone's health and well-being at work. Mats make your facilities safer for both employees and customers.

With our mat service, you can save a considerable amount of money on cleaning. On top of that, you will make your facilities more pleasant and comfortable in many ways.

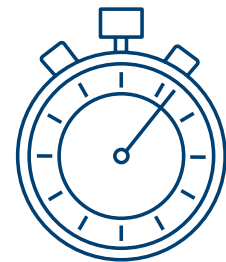

Why buy when you can rent

Our rental mat service is an easy and affordable solution to keep your building clean, floors protected, and people comfortable.

We take care of everything, from finding the right mats for your company to ensuring that they are cleaned and delivered on a regular basis. We also help with storage and final disposal. With us it's surprisingly simple!

Just marvel at your clean, stylish and comfortable premises, while we make the most of your mats.

What benefits will our service bring to you?

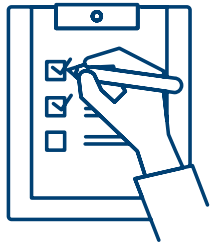

Save cleaning time and money by renting instead of buying

Full product range from entrance to back door

Clean premises with stylish and customisable mats

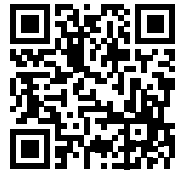

Safe & comfortable workplace for your customers & employees

Renting textiles is a sustainable and carefree option – this is how it works

1 Manufactured from durable and recycled materials

All our mats are durable and partially made by biobased or recycled materials **for a longer lifespan.**

2 Maintained with minimal water and energy consumption

We **recycle water and decrease energy consumption** with our heat recovery systems.

3 Delivered with optimised loads and routes

Our delivery service is reliable, on time and with **minimal carbon footprint.**

4 Recycled to create new

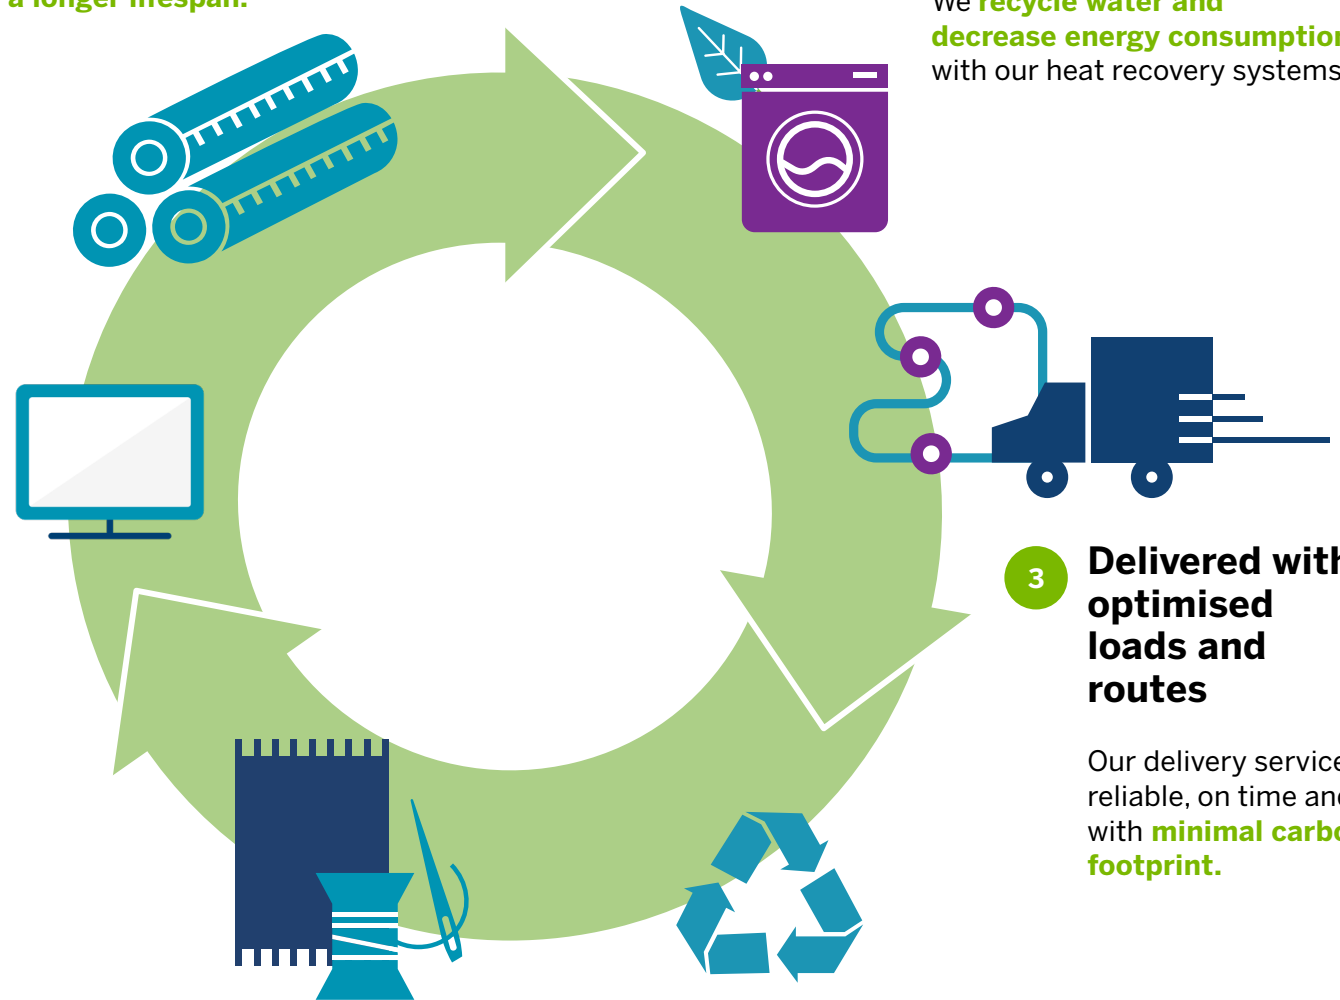

Our goal is to **recycle 100%** of our textile waste by 2025.

6 Digitalized service

Our service orders and delivery reports can be made in **eLindström.**

5 Repaired and reused to extend usability

We maximise the lifespan of mats by **repairing and reusing** them.

We offer you a solution that is

- Flexible and cost-efficient.
- Right finishing touch to interior design.
- Designed for easy use and durability.
- Delivered to you on agreed basis according to your need.
- Environmental friendly: More sustainable materials in our standard mat collection - 75% recycled yarn.

Mats from the front door to the workstation

Entrance mats ①

- Ensure that mud and grit remain at the front door
- The anti-slip surface improves safety

Standard mats ②

- Stop sand, dust, and dirt to keep your facilities clean and tidy
- The rubber base prevents the mat from slipping and promotes safety

Design and promo design mats ③ ④

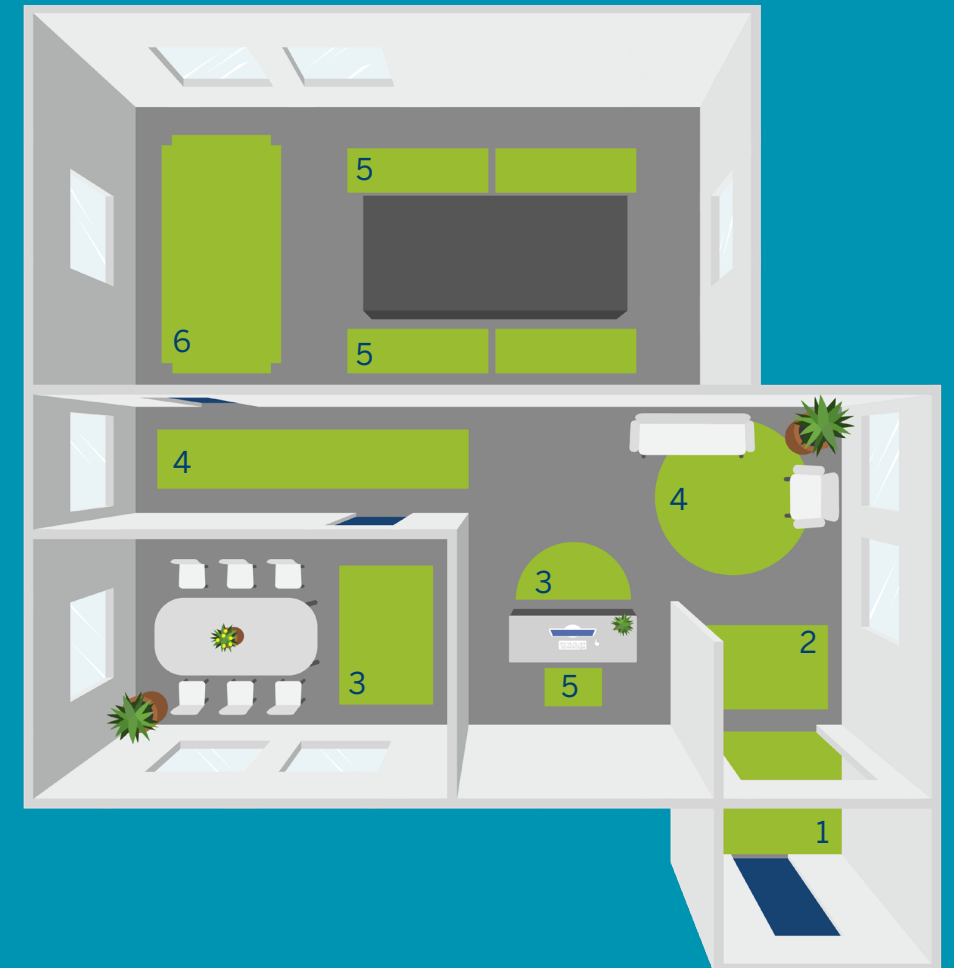

- Strengthen your company's communication and brand
- The properties are the same as in standard mats

Ergonomic mats ⑤

- An ideal solution for service desks or similar workspaces where people spend lot of time standing or walking back and forth

Industrial mats ⑥

- Industrial mats are perfect for spaces that are particularly prone to dirt and where mats suffer heavy wear

Continuous service

Lindström Design – Our charming and impressive collection

The versatile Lindström collection is available in fresh colour options and different size options that fit your premises.

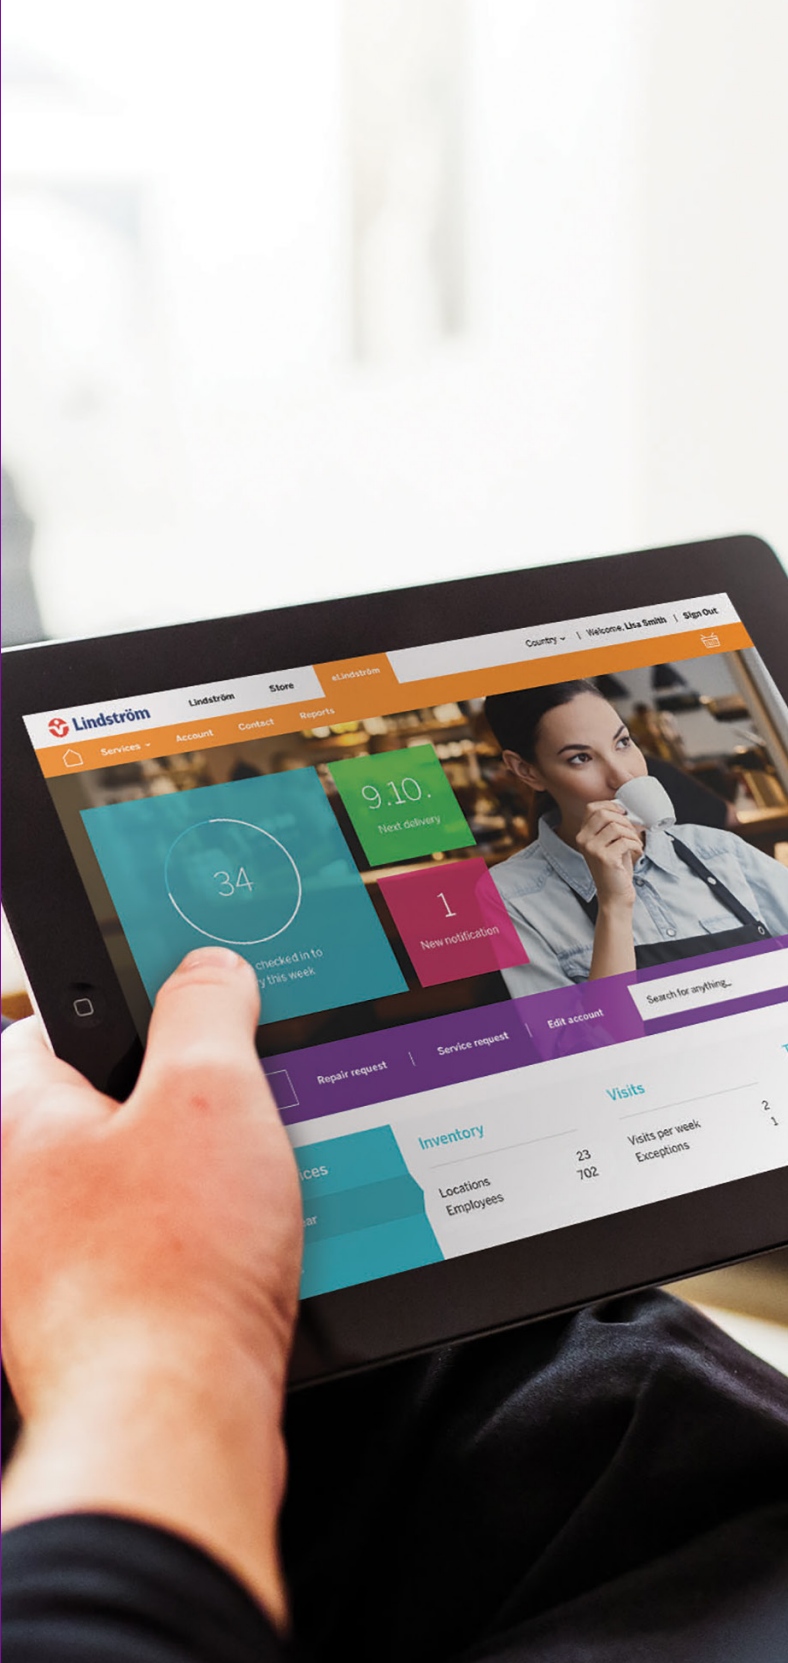

Our Design mats match your brand and personality

You can choose the colors, patterns and messages you like. We will help you with choosing the right colors and the final look of the mat.

The mats are available in a variety of sizes and shapes. Shaped design mats can be used to make the interior look more impressive and build the company brand.

Become more sustainable with our mat collection.

Our Standard mats are made from 75% recycled yarn, while the Eco Design mats are made from 100% recycled materials. By choosing the recycled materials, we contribute to the reduction of waste and the conservation of natural resources, helping to create a greener future.

eLindström

Easy – Easily manage all your Lindström services and different delivery locations.

Convenient – All relevant information can be seen straight on your dashboard. Make additional orders, refill supply stocks and other service requests if needed.

Transparent – Track deliveries and products, view the status of service requests and orders.

Fully mobile – Use whenever you want, wherever you want.

Our circular model promotes sustainability

We take the environment into consideration in both manufacturing and service processes.

More sustainable products

We aim for 100% of our mat product collections to be partially made from sustainable materials. We prioritise the use of recycled materials and reduce the demand for virgin resources.

We recycle water in different ways and save energy in our laundries

We recover water from rinsing phases and using it again in the washing. Used water of cleaner products is utilised for washing dirtier textiles in some laundries. Lower washing temperatures and shorter process times have improved our energy efficiency.

Close to the customer

Thanks to our local service centres, our transport distances are short. We also use local transportation companies. One kilogram of laundry travels 260 metres on average.

Sustainable materials

We maximise the lifespan of textiles by choosing durable & recycled materials and by repairing and reusing them. Our efficient and environmentally-friendly industrial laundry ensures a long lifespan for our mats.

Support our net zero targets - choose the circular solution

We aim to halve our emissions by 2030 and reach net zero by 2050.
