

# Cleaning Textiles Services

A cost-efficient & circular  
solution for cleaner spaces

## Behind every spotless space is a cycle of tools and practices

With every scrub, rub, wipe, and dry, there's cleaning supplies taking the biggest hit. Over time, without proper care, they become worn, less hygienic, less effective, and harder to clean with. Eventually, they're replaced with costly new ones and the cycle repeats.

# Cleaning supplies don't have to be disposable – or cost a ton.

## Let us handle the dirty work!

**We take on the dirty work of cleaning —**

handling the washing, restoring, and caring for the textiles that make clean spaces possible. No more running low on fresh supplies, overspending on disposables, or falling into time-consuming habits.

At Lindström, we believe in textile handling that keeps the materials you rely on in top condition for longer. It's a sign of care that your customers can see and feel.

# You focus on the cleaning, we focus on making the cleaning possible!

Let Lindström take care of the dirty work of cleaning; you can free up time and money for your core business!

Our service includes everything from acquiring the textiles and other supplies to laundry, quality inspection, lifecycle tracking, delivery, storage, and even discarding the textiles. You only pay for the weekly rental.

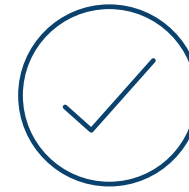

## Our Cleaning textile service is based on your needs

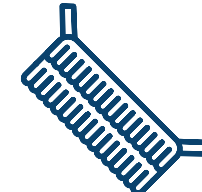

Save time and money by renting instead of buying

Get high-quality and professionally maintained textiles.

Keep your employees happy by ensuring the safety, hygiene and comfort.

Designed to integrate with your operations without disruption.

Promoting circular economy by choosing the rental textile service.

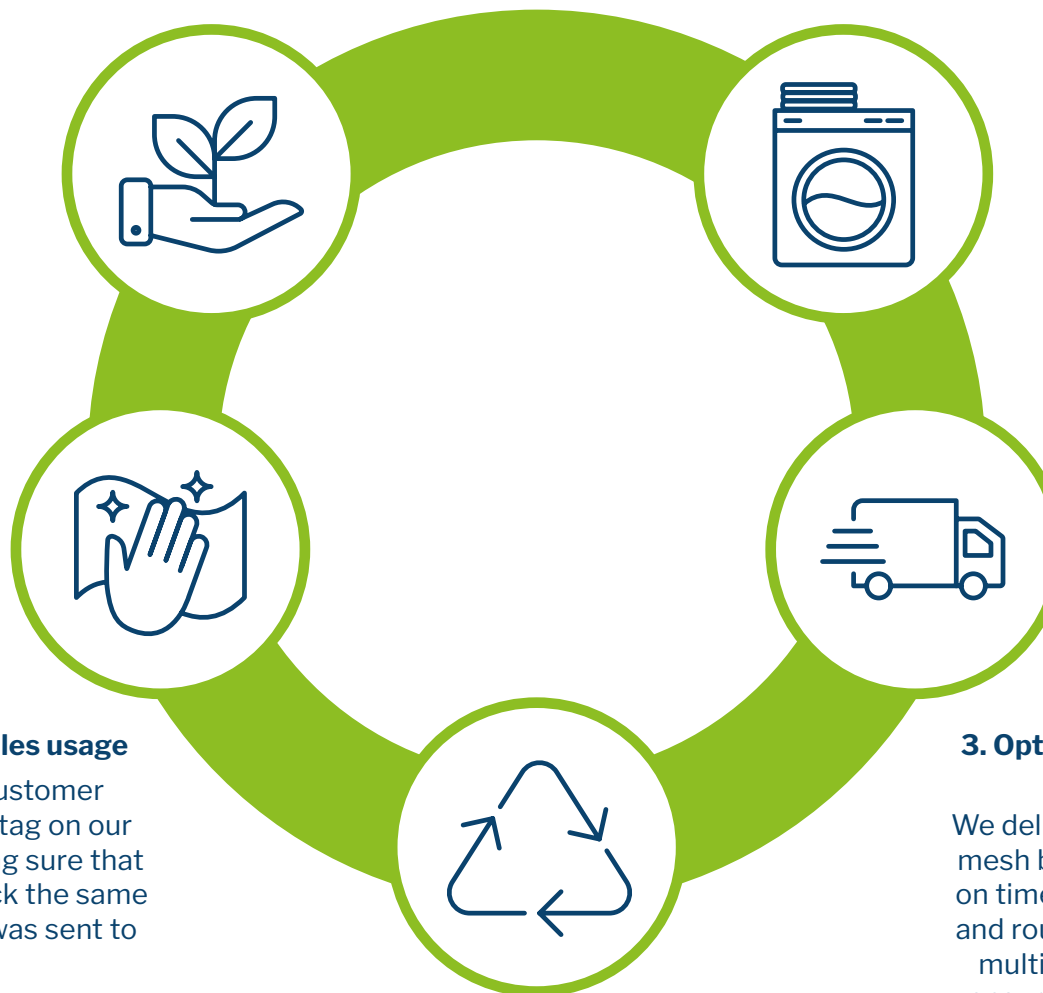

## Renting textiles is an easy and carefree option – this is how it works

### 1. Designed for maximum life

Moving forward with more  
recycled content in our  
product offering

### 2. Washing and maintaining

Our industrial laundry washes and maintains all  
mops and wipes hygienically with optimised water  
and energy consumption. We also conduct quality  
control to maintain consistent product standards.

### 5. Optimisation of textiles usage

We are tracking the customer  
inventory through RFID tag on our  
sealed mesh bags, making sure that  
the customer receive back the same  
number of textiles that was sent to  
our laundry.

### 3. Optimised deliveries and easy handling

We deliver mops and wipes in  
mesh bags to our customers  
on time with optimised loads  
and routes, using convenient  
multipacking solutions to  
ensure easier handling and  
increased efficiency.

### 4. Recycled to create new

We aim to recycle 100% of our textile waste by 2025

## Our Cleaning textiles offering

We proudly offer a comprehensive selection of high-quality cleaning products, sourced from two global suppliers —Vileda and Diversey.

Our range includes mops of different widths and quality levels designed to meet diverse cleaning needs. Additionally, we provide microfiber wipes that ensure effective and hygienic surface cleaning across various environments, while requiring less chemical usage thanks to the advanced properties of the material.

# Your reliable partner for cleaning textiles

A hassle-free way to clean: We bring peace of mind to your workflow with a convenient service that ensures your team always has fresh, ready-to-use materials.

Flexible service: Our offering dynamically adapts to your actual cleaning needs and seasonal changes, helping you maintain the right supply at the right time — without excess or shortage.

Quality you can trust: Count on consistently high-quality, professionally maintained textiles. Our industrial laundry process enhances hygiene, extends product life, and supports healthier working conditions for your staff.

Sustainability without compromise: As the forerunner in sustainable textile services, we are committed to minimising environmental impact — from design to laundry processes. You receive durable, high-performing textiles while contributing to reduced waste and supporting the circular economy.

# Our rental model promotes circular economy

We believe in the power of the circular economy and recycling our products. Prioritising the use of recycled materials in our mops and wipes, we reduce the demand for virgin resources and divert waste from landfills. We actively seek opportunities to collaborate with suppliers and customers to close the loop, creating a circular flow of materials.

## Compliance and safety

Ensuring compliance with industry regulations and standards is our top priority. We conduct regular audits and quality checks to ensure compliance and uphold the highest standards of cleanliness, hygiene, and safety in our laundries.

## Circular solution

We help you choose more sustainable textiles made with increased recycled materials. Our advanced laundry services keep them in top condition, extending their life and maximising your value — all with less environmental impact.

## Support our net zero targets

We aim to halve our emissions by 2030 from the year 2021 level and reach net zero by 2050.
